Op. John Fore, W6LD Grid FK52al

QSL via WA3FRP

The island of Aruba is an independent entity within the Kingdom of the Netherlands. It lies about 16.5 miles off the north coast of Venezuela in the southern Caribbean, and has a diverse population of about 105,000.

The P4ØY/P49Y station has three towers located on a 1/4 acre lot with the following Force 12 antennas: C31XR at 43 feet; 2 element 10 meter yagi at 55 feet; 5 element 15 meter yagi at 55 feet; 4 element 20 meter yagi at 68 feet; 2 element 40 meter yagi at 76 feet and 1 element 80 meter Sigma 80 at 67 feet. There is also a 160 meter "double L" suspended at 67 feet from the back tower and four 500 foot beverage listening antennas (controlled by a K9AY switching box/preamp) located behind the house in the "Cunucu", the name for the large common areas of undeveloped land located through the island.

The station is owned and operated by John Fore, W6LD/P4ØL, and Andy Faber, AE6Y/P4ØY/P49Y.

P4ØL is happy to confirm the following QSO(s) with
